Intermanship

Experience

A collaboration of...

Internships are work experience opportunities that allow students to explore their career fields of choice. They may be paid or unpaid and can be applied toward academic credit. Internships are a great way for students to gain hands on pre-professional experience.

Employer Opportunities:

- Improves company visibility
- Brings fresh ideas
- Makes recruiting easier
- Investment in the community
- Learn what college students are studying
- Access to highly talented students
- Frees up staff/ resources
- Cost effective
- Future hiring potential
- Staff development
- Increases employee retention

Here is what our Alumni had to say...

"For as long as I can remember, I had always wanted a career where I could help people. My internship at Yellow Ribbon

Suicide Prevention Program was the perfect opportunity. This is a program that I am very passionate about and my passion and hard work landed me my dream job, a position with the Yellow Ribbon program"

Marissa Lachmiller
Bethany Lutheran College
Communication

"The internship that I participated in at Greater Mankato Growth, Inc. was a great opportunity to become involved with local business

people and organization, which are integral parts in our community. This internship was also a wonderful experience and opportunity for me to apply the textbook knowledge I had learned in school to working knowledge in a position within my career field."

Heidi Mueller
Rasmussen College
Financial Accounting

"As an intern with Habitat for Humanity I conducted extensive research and consulted with industry professionals. As part of the

internship, I spent time promoting the benefits of a new project to often-reluctant construction companies and community members. I also wrote a business plan for the new project and, much to everyone's surprise, I helped secure a large grant for the organization. The internship had a positive impact all around. I gained valuable real-world experience and a sense of fulfillment."

Becky Andert
Gustavus Adolphus College
English

Starting college as a non-traditional student, I was focused on a successful outcome from day one. I had a number of specific goals

I wanted to attain through my college experience, one of which was obtaining an internship that would help in my new career. After a class site visit to Lime Valley Advertising I asked for a portfolio evaluation. Following that meeting, I was offered an internship. Near the end of my 5 month internship with Lime Valley, I was offered full-time employment.

Dawn Fellows
South Central College
Commercial and Technical Art

"The Internship at Firepond was a really helpful experience for me; everyone was friendly and helpful. I was scheduled to

last for five months, but after four months I was offered a full-time position as a Technical Consultant. The internship really allowed me to learn the system at Firepond."

Hazem Lotfy
Minnesota State University, Mankato
Computer Science

Here is how you can get started:

- 1. Determine what you need**
- 2. Write a Position Description**
- 3. Get the Word out**
- 4. Hire**
